

# Distribution Engineer

*“Excellence in Energy Solutions”*

Saint John Energy is an innovative, customer-centered, distribution utility serving the ratepayers and citizens of Saint John New Brunswick since 1922.

Saint John Energy is guided by the following seven principles: Safety, Results-Driven, Accountability, Customer-Focused, Teamwork, and Honesty, Integrity and Respect. Above all else though, the Safety of our employees and our community is more important than any business interest and is our number one priority.

**Applications are invited for the position of “Distribution Engineer”.**

The role of Distribution Engineer contributes to Saint John Energy’s success through the design and implementation of high quality engineering plans, standards and practices to ensure the safe and efficient construction, operation and maintenance of Saint John Energy’s Substations and Distribution system.

Saint John Energy enjoys some of the highest levels of customer satisfaction and reliability in Canada with a customer satisfaction rate of 83% and an interruption frequency and duration that is less than half of the national average!

**The employment requirements for this position are:**

- A recognized degree in Electrical Engineering and be eligible to become a member of APEGNB
- Strong analytical and problem-solving skills
- Well refined verbal and written communication skills
- Ability to interact effectively with peers and Management
- Knowledge of Canadian electrical and engineering codes and standards
- Proficiency with Microsoft Office Suite of tools and Auto Cad
