Saint John Energy – winner of two Canadian Electricity Association Occupational Health and Safety Awards

St. John's Newfoundland – October 29th, 2015. Saint John Energy is the recipient of two Occupational Health and Safety awards from the Canadian Electricity Association (CEA).

Saint John Energy has been awarded the 2015 CEA Vice President's award for safety excellence, at the bronze level. This award is given for top quartile performance in All-injury / Illness Frequency and Lost Time Severity Rates within the **transmission and distribution operations** compared to utilities across Canada for the 2014 reporting year.

Saint John Energy has also been awarded the 2015 CEA President's Award for safety excellence, also at the bronze level. This award is given to utilities that achieved the same **company-wide** top quartile safety performance compared to utilities across Canada for the 2014 reporting year.

Bronze level of recognition is for a single year of demonstrated performance. Silver and gold award levels are also awarded for 2 years and 3 or more years of consecutive demonstrated top quartile safety performance.

"I am very proud of the hard work of all of our employees in achieving this level of performance and recognition," said Ray Robinson President and CEO of Saint John Energy. "2014 was a stellar year with not a single lost time or medical aid incident at Saint John Energy."

For more information, please visit Saint John Energy's website at www.sjenergy.com or the CEA website www.electricity.ca for their news release.

Saint John Energy has been a premier provider of energy to the people of Saint John since 1922. Today, Saint John Energy provides reliable services and competitive rates to more than 36,500 local customers through 13 substations spanning 316 square kilometers. Saint John Energy also provides street lighting, area lighting and more than 20,000 water heater rentals. Toward our mission of excellence in energy solutions, we deliver value to our customers through our commitment to environmental, social and economic sustainability.
